Researcher:

<b>Running Trials:</b>	
1. New Paper for Arena	
2. Change out paper between cages	
3. Run 5 trials per mouse (5 min max)	
4. After completely finishing running trials, put food in each cage for 1 hr.	
<b>Food Deprivation:</b>	
1. Mice given free food for one hour after done running trials. Take food out after.	
2. Weigh Each Mouse	
3. Put mice away.	
<b>Filling out Food Deprivation Sheet:</b>	
1. Did you get all of the weights?	
2. Did you initial every weight you took?	
3. Did you check to make sure they are above their calculated minimum weight?	
4. Double check to make sure you got all the weights written down and initialed (upstairs and downstairs mice).	
5. Does each cage have a " <i>Do not Feed sign</i> " on it, and is flipped the right way?	
6. If mice aren't going to be ran the next day make sure to flip the " <i>Do Not Feed</i> " sign, and note FF (free food) and initials for days they will not be food deprived.	
7. If on FF, has food been put in cages?	
Double check to make sure lights are off in the arena and mice are put away. :)
